FOR IMMEDIATE RELEASE

TURNING OUT POWER & PRECISION WITH NEW OKUMA LB3000 EX LATHE

Cedar Grove, New Jersey – JANUARY 14, 2013 –United Support Solutions, Inc., a manufacturer of defense and aerospace components, has purchased a Space Turn LB3000 EX BB MYW x 800 model lathe. The install is planned to occur by February 2013.

The Okuma LB3000 EX offers accuracy, capacity, flexibility, and thermo friendly technology. It is known for the highest milling performance and quality, producing a machining dimensional change over time of less than $\text{Ø}5\mu\text{m}$.

This machine supports an increase in turning opportunities and expands machining capacity for quicker deliveries to the customer.

About United Support Solutions

Celebrating thirty-three years in business, United Support Solutions is an ISO 9001:2008 and ITAR registered firm, producing critical components and assemblies for defense, aerospace, and commercial applications. United Support Solutions provides a full spectrum of one-stop manufacturing services, from engineering support, to sheet metal fabrication, machining, finishing, painting, powder coating, silk-screening, assembly, integration, and kitting.
